Dear Mr. Malanga,

We, the undersigned, support the position of the Association of Salon and Spa Professionals, the Day Spa Association and the Associated Skin Care Professionals with the regard to the current and proposed new language in the Rules & Regulations regarding hair removal by waxing, in general, and the Brazilian Waxing Technique, specifically.

We agree that there is an overwhelming adverse perception of what this service provides and an underwhelming amount of factual information about what this service is actually about and how it can be safely provided.

We share the belief of the Association of Salon & Spa Professionals, The Day Spa Association, and the Associated Skin Care Professionals that the rules and regulations that govern the Board of Cosmetology must always safeguard consumer safety, but the Board must also be mindful to safeguard the financial and professional integrity of the Salon & Spa Industry in our state.

We respectfully request that this issue be revisited and reconsidered at the next meeting of the Board of Cosmetology on April 14th, 2009.

Respectfully,
